StratejiCo.

Ayhan Karata■ - Dytech Automative Turkey

“Our mutual work with StratejiCo., started at a hard time for our company. They brought new perspectives to me and the project team. They gained the trust of the employees with one to one interviews and workshops; they showed that we can change something all together. I have seen that they have an efficient network.

They know the fields which foreign capital is sensitive very well. So, I have never thought that they have an unethical or illegal approach.”

Ayhan Karata■

General Director of Dytech Automative Turkey
